Testriq QA Lab LLP

QA TESTING CERTIFICATE OF COMPLETION

TO: R G INFRASTRUCTURE
PRODUCT NAME: VIDHIK
FROM: TESTRIQ QA LAB, LLP
DATE: MARCH 23, 2026

APPLICATION VERSIONS:
ANDROID: 2.4
IOS: 1.4 (1.39)
WEB: 0.2.3

Subject: Certification of Quality Assurance Testing

This is to certify that Quality Assurance (QA) testing for the application **Vidhik** has been successfully conducted by Testriq QA Lab, LLP.

The scope of testing included **Functional, Smoke, Sanity, Regression, Retesting** and **Exploratory Testing**, executed to validate application behavior, core functionalities and overall system reliability.

SUMMARY
All critical and high-priority test scenarios were executed. Identified defects were addressed and retested. At the time of completion, no critical or blocker issues were open within the defined testing scope.

CONCLUSION:
Based on the testing performed, the application is assessed to be **functionally stable** and ready for release under the tested conditions.

This certification applies only to the scope, versions and environments tested and does not imply defect-free operation beyond these conditions or future changes.

Disclaimer:
This certificate is issued based on the testing scope, environments and conditions defined during the QA engagement. It reflects the application behavior observed at the time of testing for the specified versions. This certification is limited to the executed test scenarios and does not guarantee defect-free operation under all conditions, environments or future application changes. Testriq QA Lab, LLP makes no warranties, express or implied, regarding application performance, behavior or reliability beyond the scope of testing conducted.
